SHAFAQ AL GROUP UNITED L.L.C

BEYOND EXCELLENCE!

**SHAFaq AL GROUP UNITED L.L.C** have great pleasure in introducing ourselves as a leading Structural Steel Fabrication Contractor in the Sultanate of Oman since the year 2010. Our continued efforts in achieving customer satisfaction and our aim of expansion enabled us to become a market leader in a short span of time. We are mainly catering in the field of Oil & Gas, Power plants, Airports, and Infrastructure industries for the Fabrication and Erection of Heavy and Medium structural steel works, Plate works, Piping and Pipe line, Pre Engineering Buildings, Industrial and its related works and services.

**SHAFaq AL GROUP UNITED L.L.C** is an Oman based company providing cost-effective solutions for Mechanical Engineering services and is committed to provide top class service to its customers.

A significant investment has been made in high production unit equipped with sophisticated and modern machinery, manufacturing capabilities, computer aided design, material selection process, machine shop facilities coupled with a team of talented designers, engineers, technicians, skilled and semi-skilled workers.

With our Group Head office at # 401, Zubair Building, Azaiba Sultanate of Oman, and fabrication yard at Barka Industrial Area spread over a total improved area of 25000 Sq. ft and employee strength of 100 nos. including qualified and experienced Management, Engineers, Supervisors, Certified welders and fabricators, etc. We are fully equipped to handle fabrication of heavy to medium structural steel works and nonstructural works as well. We also fabricate storage tanks, handrails, Electrical Towers, Manifold, Skids, fencing, ware house sheds, mezzanine floors. We are in the process of setting up a modern and well equipped factory at Samail Industrial area, where Government of Sultanate of Oman has allotted us around 12,500 sq meters of land for setting up our factory.

Who  
we are?

## VISION

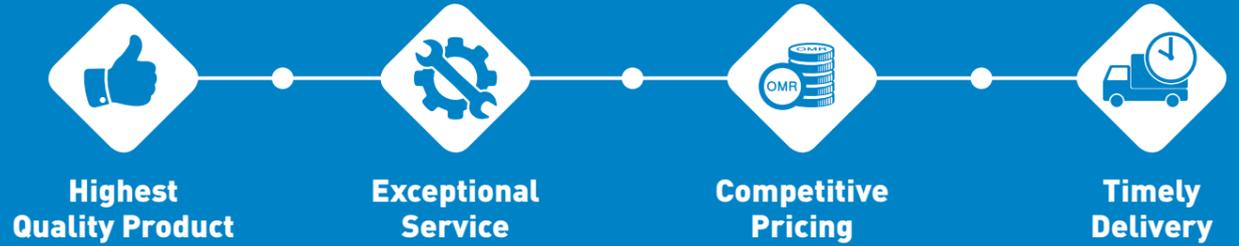

To be highly committed to leading the industry in honesty, safety, integrity and exceeding our customer's expectations. In addition to providing steel products, we recognize it in all levels within the organization that involvement and continuous improvement requires commitment to our suppliers and customers by a competent and motivated team taking responsibility for innovation and excellence.

## Vision & Mission

# HONESTY

## MISSION

To jointly build high capacity, efficient & cost effective steel factories for speedy delivery and for benefiting from economies of large scale to offer customers versatility in design and fabrication to meet their exact requirements, keeping the following on priority:

Our rigid quality assurance / control procedures are maintained and implemented to the highest level of standard. This is in order to ensure that the product quality services will meet the stringent requirements of our customers and their specifications. As we try to position ourselves at the very heart of the gulf's steel industry, it will serve its purpose in leading us to the right direction, business-wise, on one hand and the development and management of our human resource on the other.. It is our aim to be experienced in our filed of expertise, showing flexibility, innovation and possessing a positive approach to all our undertakings. SHAFaq is forging ahead to serve its purpose i.e., to be productive, a pillar and a contributing factor to the growth and resiliency of the gulf's highly competitive steel industry. This, in essence, is our company tenet, driving principle and belief.

### PRE ENGINEERING BUILDINGS

Design, Procurement, Fabrication & Erection of:

- Ware House • Industrial Buildings
- Curved Steel Structures for Infrastructure Projects

### STEEL STRUCTURES

Fabrication & Erection of:

- Light Structures • Medium Structures • Heavy Structures
- Steel Bridges Platforms & Walkways
- Towers & Frame Works • Canopy & Ballroom Shades

### PLATE WORKS

Fabrication & Supply of:

- Steel Moulds • Diesel & Oil Tube Tanks • Steel Containers
- Fuel / Water / Chemical Storage & Blending or Mixing Tanks
- Ducts & Chutes

### PIPING & PIPE LINE WORKS

Fabrication & Supply of:

- Spools • Plant Piping • Fabrication & Erection of Cross Country Pipe Line

### CARK PARKING SHADES

Fabrication & Installation of:

- Profile Sheet Car Parking • Curved Sheet Car Parking
- Textile Car Parking • GRP Shade Car parking

### MISC. STEEL STRUCTURE

Fabrication and Installation of:

- Handrails • Bollards • Stairs, Cat & Cage Ladders • Gratings
- Fences • Embedded Steel Requirements & all types of Gates

### BLASTING & PAINTING

We offer a full range of surface preparation and protective coating services for Oil & Gas, Petrochemical, Power, Industrial, Construction companies and main contractors.

- Abrasive Blasting & Coating (Off-Shore & On-Shore)
- Hot Dip Galvanized Coating
- Epoxy Coating
- Powder Coating
- Fire Retardant Coating

### PROCUREMENT

As per MRP, procurement section checks the availability in-house and for the remaining items, at least three quotations are called for considering the factors such as quality, price, supply capability and history of the suppliers. Then only Purchase order will be raised. The incoming materials checked for conformity like grade and heat number etc.

Services &  
Activities

## Company HSE policy

**SHAFAQ AL GROUP UNITED L.L.C** general HSE policy is to:

- Provide adequate control of the Health, Safety & Environmental risks arising from its work activities.
- Ensure all employees are adequately trained and are competent to perform their given tasks.
- Provide & maintain safe plant, tools & equipment.
- Prevent accidents & work related cases of ill health.
- Maintain safe & healthy working conditions.
- Continuously improve HSE management system.
- Comply with applicable HSE legal and other requirements.
- Review HSE policy at regular intervals and revise them as per requirements.
- Ensure safe handling and use of equipment & tools.

At **SHAFAQ**, we are developing our own quality system in line with the supreme companies and are obsessed to implement quality assurance system to bring out company quality manual, at this juncture based on the nature of work, customer specification and considering the necessary industrial values.

We are strictly following the quality norms and incorporating project specific quality methods to our working environment. Our quality team is dedicated to reduce the challenges faced to ensure the achievement of project deadlines.

We have organized and qualified QA/QC department and its endeavor is to meet all quality standards throughout the working procedures.

## Quality System & Policy

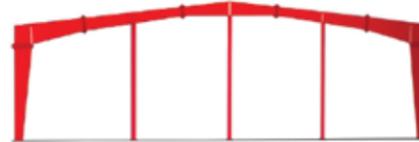

We are committed to quality & we strictly follow the quality standards set forth by international organizations. Level of quality is achieved and maintained through implementation of well-developed quality management system with process and procedures that pronounce the competence of the company to its customers, auditing authorities.

## PEB Frames

**Clear Span**  
(Economical span 16m to 36m)

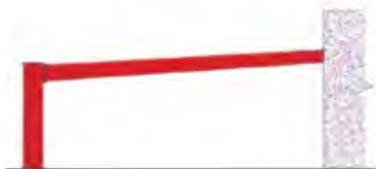

**Multi-Span-III**  
(Economical span 48m to 96m)

**Clear Span Single Slope**  
(Economical span 6m to 18m)

**Rafter System**  
(Economical span 12m to 25m)

**Lean to Frame**  
(Economical span 10m to 18m)

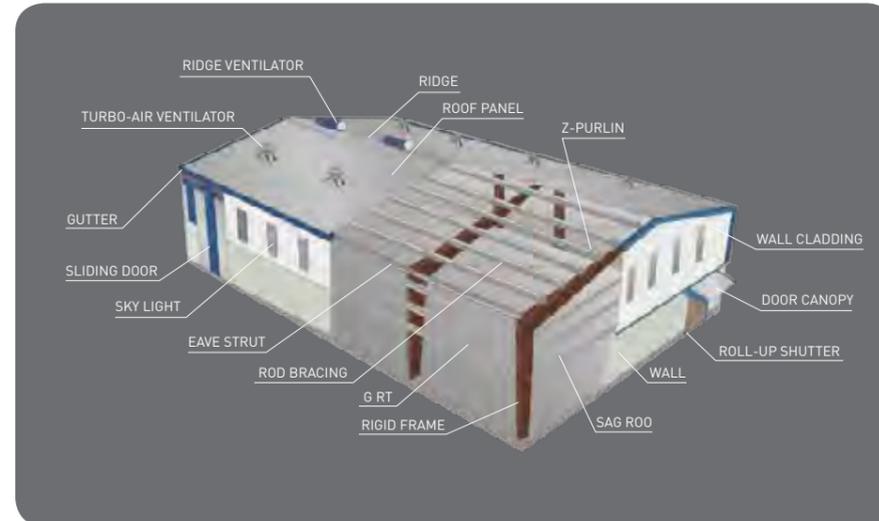

**EOT Crane with Clear Span**

**'T' (Butterfly) - Canopy**

**Typical Frame with Mezzanine**
